

## Presentation Instructions

Who is this presentation for?

The trainer and learners.

What is in this Presentation?

- Course information that matches the Learner Guide content.
- Review questions and model answers.
- Slides contain summarised content, with full notes and information for the trainer, visible when the slide show is shown in "Presenter View" (see instructions on next slide).
- Use this presentation to support and reinforce the training information from the Learner Guide.

What do you need to do before you use it for the first time?

1. Rebrand the presentation.
2. Review the presentation as part of your validation process.

- ◆ Erection of suspended and fabricated hung scaffolds.

### 1.1.3 High Risk Work and WHS Legislation

Once you pass your assessment you will have 60 days to apply for your licence.

You must renew your licence within 12 months of its expiry otherwise:

- ◆ Your licence can't be renewed.
- ◆ You need to repeat the course and re-apply for your licence.
- ◆ You need to enrol in the course again and be supervised by somebody who has a current licence for the same class.

### 1.1.3 High Risk Work and WHS Legislation

As part of their legal duty of care, licensed workers must take reasonable steps to make sure the way they work does not impact on the safety of themselves or any others on site. Failing to work safely can result in the health and safety regulator:

- ◆ Suspending or cancelling your licence.
- ◆ Refusing to renew your licence.
- ◆ Ordering that you are reassessed to ensure you are competent.
- ◆ Prosecuting.

### 1.1.3 High Risk Work and WHS Legislation

Your employer should ask you for evidence that you have a high risk licence before you start any high risk work. You can show them:

- ◆ Your licence.
- ◆ Proof from the training company that you have passed your assessment.
- ◆ Proof that you are currently completing a course for high risk work.

## 1.2 Plan Job

Planning the job before you start is an important step in any high risk work.

When planning out the task, some things you may consider are:

- ◆ Workplace-specific issues.
- ◆ Safe and adequate communications.
- ◆ Access and egress to/from work area.
- ◆ Weather conditions.
- ◆ Location of the task.

## 1.2.1 Work Health and Safety Requirements

Work Health & Safety (WHS) is defined as laws and guidelines to help keep your workplace safe.

These can be broken down into four main types:

<b>Law</b>	<b>Acts</b>
	<b>Regulations</b>
	<b>Codes of Practice</b>
	<b>Australian Standards</b>

Work Health & Safety (WHS) is defined as laws and guidelines to help keep your workplace safe.

These can be broken down into four main types:

### Law and Description

**Acts** - Laws to protect the health, safety and welfare of people at work.

**Regulations** - Gives more details or information on particular parts of the Act.

**Codes of Practice** - Are practical instructions on how to meet the terms of the Law.

**Australian Standards** - Give you the minimum levels of performance or quality for a hazard, work process or product.

**EPCC1RG400**

## Section 1 Review Questions

1. What are the four (4) main types of laws and guidelines relating to WHS legislation?
