

CPCCLSF3001 Licence to Erect, Alter and Dismantle Scaffolding Intermediate Level

CPCCLSF3001 Licence to Erect, Alter and Dismantle Scaffolding Intermediate Level.

[START COURSE](#) [DETAILS](#)

Overview

This online workbook is pre-course material only - you are still required to attend a practical session and successfully complete a practical assessment before you will be awarded a nationally recognised statement of attainment. Take your time and read each section carefully, it might help for you to take notes.

Make sure you answer all of the checkpoint review questions along the way. The results of this will be sent to your trainer as part of your course assessment.

What you will learn

This course is designed to help you understand all of the elements required to Erect, Alter and Dismantle Scaffolding Intermediate Level.

SECTION 1

Lesson 1 of 119

1.1. Introduction

These training materials are based on the National High Risk Licence Unit of Competence
CPCCLSF3001: Licence to Erect, Alter and Dismantle Scaffolding Intermediate Level.

Scaffolding work is undertaken in construction and other industries where temporary structures are erected, altered and dismantled.

This unit applies to scaffolding work involving:

- Centilevered crane loading platforms.
- Centilevered scaffolds.
- Spur scaffolds.
- Barrow ramps and sloping platforms.
- Scaffolding associated with perimeter safety screens and shutters.
- Mast climbing work platforms.
- Tube and coupler scaffolds (including tube and coupler covered ways and gentries).

Lesson 10 of 119

1.2.4 Scaffold Duty

Scaffolds have different size requirements and rated capacities according to their duty:

Light Duty	+
Medium Duty	+
Heavy Duty	+

The configuration and the parts that make it up generally determine the duty of a scaffold.

You need to make sure the scaffold you intend to erect will be the correct duty depending on the requirements of the job, and the types of loads that will be resting on the scaffold while it is erected.

You should check the manufacturer or supplier specifications for the exact rated capacity of the working platforms of a scaffold. Do this during the planning stage, this will make sure the scaffold can support the weight of any workers, tools, equipment and materials required for the job.

Question
01/02

Section 1: Question 1 – Can a person with an intermediate scaffolding licence complete basic scaffolding tasks?

Yes.

No.

Only if there is no one else available.

Only with the supervision of someone with a basic scaffolding licence.

SUBMIT

Question

02/02

Section 1: Question 2 – Which two (2) of the following are examples of scaffolding tasks that a person with an intermediate level licence may complete?

- Erection and dismantling of borrow ramps and sloping platforms.
- Erection and dismantling of suspended scaffolds.
- Installation of cantilevered crane loading platforms.
- Erection and dismantling of hung scaffolds.
- Erection and dismantling of swing scaffolds.
