

Presentation Instructions

Who is this presentation for?

The trainer and learners.

What is in this Presentation?

- Course information that matches the Learner Guide content.
- Review questions and model answers.
- Slides contain summarised content, with full notes and information for the trainer, visible when the slide show is shown in "Presenter View" (see instructions on next slide).
- Use this presentation to support and reinforce the training information from the Learner Guide.

What do you need to do before you use it for the first time?

1. Rebrand the presentation.
2. Review the presentation as part of your validation process.

Evaluation Only

Instructions for Viewing in Presenter View

NOTE: This view is only applicable when the computer is connected to a second screen or a data projector.

Once the second screen/projector is connected make sure that the "Use Presenter View" box is ticked.

This is found in the "SLIDE SHOW" tab as shown below.

1.1 Introduction

These training materials are based on the National High Risk Licence Unit of Competence **CPCCLSF4001 Licence to Erect, Alter and Dismantle Scaffolding Advanced Level.**

You will learn about:

- ◆ Planning out your work.
- ◆ Selecting and inspecting equipment.
- ◆ Setting up for the task.
- ◆ Erecting and dismantling hung and suspended scaffolding.

These training materials are based on the National High Risk Licence Unit of Competence **CPCCLSF4001 Licence to Erect, Alter and Dismantle Scaffolding Advanced Level.**

You will learn about:

- ◆ Planning out your work.
- ◆ Selecting and inspecting equipment.
- ◆ Setting up for the task.
- ◆ Erecting and dismantling hung and suspended scaffolding.

1.1.1 When is a High Risk Licence Needed?

A high risk work licence allows you to lawfully work with certain high risk equipment and plant such as forklifts, cranes, hoists, elevating work platforms, scaffolding, rigging and pressure equipment. There are 3 levels of scaffolding class under a high risk licence. This course covers the work associated with the Advanced Scaffolding (SA) class of high risk work licence involving erecting, altering or dismantling a temporary structure to support a platform from which a person or object could fall more than four metres.

A high risk work licence allows you to lawfully work with certain high risk equipment and plant such as forklifts, cranes, hoists, elevating work platforms, scaffolding, rigging and pressure equipment. There are 3 levels of scaffolding class under a high risk licence. Evaluation

1.1.1 When is a High Risk Licence Needed?

Competence in this unit does not in itself result in a licence. A licence is obtained after competence is assessed under applicable Commonwealth, state or territory work health and safety (WHS) regulations.

1.1.2 What Types of Work can you do with a Advanced Scaffolding High Risk Licence?

A person with an advanced scaffolding licence is legally allowed to carry out the following tasks:

- ◆ All basic scaffolding tasks:
 - ◆ Erection, alteration and dismantling of modular and prefabricated scaffolds.
 - ◆ Erection of cantilevered materials hoists with a maximum working load limit of 500 kilograms.
 - ◆ Use of ropes and gin wheels.
 - ◆ Installation of safety nets.
 - ◆ Use of static lines.
 - ◆ Erection of bracket scaffolds.

1.1.2 What Types of Work can you do with a Advanced Scaffolding High Risk Licence?

- ◆ All intermediate scaffolding tasks:
 - ◇ Installation of cantilevered crane loading platforms.
 - ◇ Erection and dismantling of cantilevered and spurred scaffolds.
 - ◇ Erection and dismantling of barrow ramps and sloping platforms.
 - ◇ Scaffolds associated with perimeter safety screens and shutters.
 - ◇ Erection and dismantling of mast climbers.
 - ◇ Erection, alteration and dismantling of tube and coupler scaffolds including tube and coupler covered ways and gantries.

1.1.3 High Risk Work Licence Requirements

Once you pass your assessment you will have 60 days to apply for your licence.

You must renew your licence within 12 months of its expiry otherwise:

- ◆ Your licence can't be renewed.
- ◆ You need to repeat the course and re-apply for your licence.
- ◆ You need to enrol in the course again and be supervised by somebody who has a current licence for the same class.

Once you pass your assessment you will have 60 days to apply for your licence.

You must renew your licence within 12 months of its expiry otherwise:

- ◆ Your licence can't be renewed.
- ◆ You need to repeat the course and re-apply for your licence.
- ◆ You need to enrol in the course again and be supervised by somebody who has a current licence for the same class.

1.1.3 High Risk Work Licence Requirements

You can still do high risk work without a licence as long as:

- ◆ You are enrolled in a high risk course for the class, and
- ◆ You are being supervised by somebody who has a licence for the same class.

Any licensed worker must take reasonable steps to make sure the way they work does not impact on the safety of themselves or any other worker. This is their legal duty of care.

You can still do high risk work without a licence as long as:

Any licensed worker must take reasonable steps to make sure the way they work does not impact on the safety of themselves or any other worker. This is their legal duty of care.

1.1.3 High Risk Work Licence Requirements

Failing to work safely can result in the health and safety regulator:

- ◆ Suspending or cancelling your licence.
- ◆ Refusing to renew your licence.
- ◆ Ordering that you are reassessed to ensure you are competent.

Failing to work safely can result in the health and safety regulator:

- ◆ Suspending or cancelling your licence.
- ◆ Refusing to renew your licence.
- ◆ Ordering that you are reassessed to ensure you are competent.

1.1.3 High Risk Work Licence Requirements

Your employer might ask you for evidence that you have a high risk licence before you start any high risk work. You can show them:

- ◆ Your licence.
- ◆ Proof from the training company that you have passed your assessment.
- ◆ Proof that you are currently completing a course for high risk work.

1.2 Types of Scaffolding

When selecting a scaffold, the specified building's design, shape, and location should be considered.

The scaffold's ability to adapt to the structure's contours should also be taken into account.
