

HLTAID011 Provide First Aid Training

HLTAID011 Provide First Aid Training

[START COURSE](#) [DETAILS](#)

Overview

This online workbook is pre-course material only - you are still required to attend a practical session and successfully complete a practical assessment before you will be awarded a nationally recognised statement of attainment. Take your time and read each section carefully, it might help for you to take notes.

Make sure you answer all of the checkpoint review questions along the way. The results of this will be sent to your trainer as part of your course assessment.

What you will learn

This course is designed to help you understand all of the elements required to Provide First Aid.

SECTION 1: PREPARE TO PROVIDE FIRST AID
1.1 INTRODUCTION
1.1.1 Introduction

Lesson 1 of 138

1.1. Introduction

This training course is based on the unit of competency **HLTAID011 Provide First Aid**.

This course describes the skills and knowledge required by a worker to provide a first aid response to a casualty in a range of situations including community and workplace settings.

Lesson 10 of 138

1.2.1.4 National Peak Bodies

Peak bodies are not-for-profit non-government organisations who represent the knowledge and interests of groups specific to their area of expertise.

In Australia there are several clinical (medical) peak bodies. The government consults with these representative organisations when adjusting or introducing new first aid practices.

Some of these bodies, their website and some useful resources they provide are detailed below.

Australasian Society of Clinical Immunology and Allergy (ASCIA)	+
Australian and New Zealand Burn Association (ANZBA)	+
Epilepsy Foundation	+

The image shows a tablet displaying a quiz question. The question is titled 'Question 01/05' and asks which Code of Practice provides further information about workplace requirements, processes, and procedures for first aid officers. There are four radio button options: The Defibrillator Council (TDC) guidelines, The Australian Medical Association (AMA) guidelines, Code of Practice: First aid in the workplace, and The Australian Resuscitation Council (ARC) guidelines. A 'SUBMIT' button is located at the bottom of the question area.

Question
01/05

Section 1: Question 2 - Which Code of Practice provides further information about workplace requirements, processes and procedures for first aid officers in the workplace?

The Defibrillator Council (TDC) guidelines.

The Australian Medical Association (AMA) guidelines.

Code of Practice: First aid in the workplace.

The Australian Resuscitation Council (ARC) guidelines.
