COURSE READY

The Digital Learning Readiness Questionnaire powered by LLN Robot

As the new Standards for RTOs approach, it is more important than ever to understand the digital capabilities of your learners. TLRG has addressed this need with the release of our new Digital Learning Readiness Questionnaire: COURSE READY.

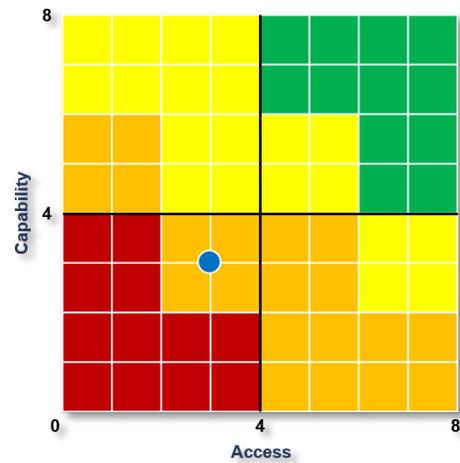

Course Ready is a platform that has been developed to align with the new Australian Digital Capability Framework (ADCF). It is part of our new Digital Profiler suite, and will initially be offered to LLN Robot subscribers.

Course Ready will give your organisation an understanding of how your learners will be able to engage with digital technologies used during the training process.

It will provide insight into not only their capability, but also their access to technology in relation to training systems such as:

- Student portals
- Booking portals
- Sending and receiving email
- Downloading and uploading documents
- Learning management systems
- Webinars and video conferencing

The platform will provide you with a detailed report informing you of the suitability of your training product in relation to the digital capability of the learner, as well as any assistance the learner may need to engage with training.

The benefits of using Course Ready:

- It can help you identify learners who may need additional support to engage with your training.
- It can help you make sure that your training content is accessible to all learners, regardless of their digital capabilities.
- It can help you improve the overall quality of your training.

Australian Digital Capability Framework (ADCF)	Foundation		Intermediate		Advanced		Specialised	
	1	2	3	4	5	6	7	8
Focus Area 1: Information and Data Literacy				4				
Focus Area 2: Communication and Collaboration					5			
Focus Area 3: Digital Content Creation		2						
Focus Area 4: Protection and Safety					5			
Focus Area 5: Technical Proficiency and Problem Solving			3					

Example of a learner's ADCF profile

Course Ready is a valuable tool that can help you ensure that your learners are able to get the most out of their training.
