

# RIICRC304E Maintain Sealed Roads

**RIICRC304E Maintain Sealed Roads**

[START COURSE](#) [DETAILS](#) ▾

## Overview

This online workbook is pre-course material only - you are still required to attend a practical session and successfully complete a practical assessment before you will be awarded a nationally recognised statement of attainment. Take your time and read each section carefully, it might help for you to take notes.

Make sure you answer all of the checkpoint review questions along the way. The results of this will be sent to your trainer as part of your course assessment.

## What you will learn

This course is designed to help you understand all of the elements required to Maintain Sealed Roads.

SECTION 1

1.1 INTRODUCTION

☰ 1.1. Introduction

Lesson 1 of 89

## 1.1. Introduction

These materials are based on the national unit of competency RIICRC304E Maintain Sealed Roads.

You will learn about:

- Planning and preparing for work.
- Storing, preparing and transporting materials.
- Repairing damaged or wearing surfaces and edges.
- Repairing pavement failures.
- Repairing and sealing surface cracks.
- Cleaning up the work area.

Roads and pavements naturally break down over time. State and local governments have road management and maintenance programs, which include regular, scheduled inspections for identifying faults or problems.

These inspections help to determine priorities and schedules for carrying out maintenance work and repairs to road

Lesson 3 of 89

## 1.2.1 Health and Safety Rules

Every workplace has to follow laws and rules to keep everyone safe. There are 4 main types:

Acts	+
Regulations	+
Codes of Practice	+
Australian Standards	+

Some states use OHS laws, and other states use WHS laws. They both talk about the same thing, but use different words or names for people. If you have any questions about safety rules you should talk to your boss or supervisor.

Question

01/02

Section 1: Question 1 – What are Acts, regulations and Australian standards examples of?

- Health and safety rules that you need to follow.
- Work instructions.
- Emergency procedures.
- Safe operating procedures.

SUBMIT

Question

05/06

Section 1: Question 7 - Select two (2) reasons why it is important to coordinate with other personnel on site.

- To make sure everyone knows why they are doing the work.
- To make sure everyone knows the work being completed.
- To make sure everyone knows when the project completion date is.
- To make sure everyone knows what they need to do.
