

RIIHAN311F Conduct Operations with Integrated Tool Carrier

RIIHAN311F Conduct Operations with Integrated Tool Carrier

[START COURSE](#) [DETAILS](#)

Overview

This online workbook is pre-course material only - you are still required to attend a practical session and successfully complete a practical assessment before you will be awarded a nationally recognised statement of attainment. Take your time and read each section carefully, it might help for you to take notes.

Make sure you answer all of the checkpoint review questions along the way. The results of this will be sent to your trainer as part of your course assessment.

What you will learn

This course is designed to help you understand all of the elements required to conduct operations with integrated tool carriers.

SECTION 1

- 1.1 INTRODUCTION

Lesson 1 of 82

1.1. Introduction

These materials are based on the National Unit of Competency **RIIHAN311F Conduct Operations with Integrated Tool Carrier**.

You will be learning about:

- Planning and preparing for operations.
- Conducting pre-operational checks.
- Selecting, fitting and removing attachments.
- Lifting and moving loads with the integrated tool carrier.
- Relocating the integrated tool carrier.
- Conducting post-operational procedures and maintenance.

Lesson 4 of 82

1.2 Site Policies and Procedures

You must follow all safety rules and instructions when performing any work.

If you are not sure about what you should do, ask your boss or supervisor. They will tell you what you need to do and how to do it in a safe way.

Before starting your work you need to make sure you have access to all operations documentation for the job. This will help you to do your work in the safest way and make sure all work is compliant.

Operations documentation includes:

Site Details

Hazard Details

Task Details

Faulty Equipment Procedures

Question

01/01

Section 1: Question 1 - Choose 3 things that may be included in 'operations documentation'.

- ☐ Personnel details and equipment log.
- ☐ Faulty equipment procedures and equipment and work instructions.
- ☐ Signage requirements and emergency procedures.
- ☐ Site details, hazard details and task details.
- ☐ Weather details and traffic details.

SUBMIT

Question

02/05

Section 1: Question 3 - Why is it a good idea to check your work instructions with your boss or supervisor?

- ☐ To help you memorise the instructions.
- ☐ To make sure you know exactly what you need to do.
- ☐ So they know you are aware of the work.
- ☐ In case you change your mind and want to do something else.
