

RIIWHS302E Implement Traffic Management Plans

Final Practical Test – Assessor Only

Final Practical Test – Assessor Only Instructions

Who is this document for?

The assessor.

1 copy is needed for each learner being assessed.

What is in this document?

- Instructions on how to run the practical assessment.
- Guidelines for determining competency.
- A pre-assessment checklist.
- The practical assessment tasks that need to be completed.
- Content from the unit of competency being assessed in each task.
- An Assessment Summary.
- Any relevant documents, forms or checklists for the learner to use during the assessment (if required).

What do you need to do before you use it for the first time?

1. Rebrand the document.
2. Review the assessment as part of your validation process.
3. Set the reading and test time limits that are highlighted in pink.

See the 'Read Me First' document for a complete set of instructions on how to use these resources.

Assessment Instructions for Assessors

This assessment has been developed for assessing a cohort of learners for the unit Implement Traffic Management Plans in the RII industry, under direct supervision, either in an actual or simulated work environment.

The assessments cover the requirements of the unit of competency RIIWHS302E Implement Traffic Management Plans.

The assessment for this unit has been divided into two parts:

1. Theory Assessment (*see Final Theory Test*)
2. Practical Assessment (*This document*).

A person who is appropriately qualified and experienced, in line with the requirements of the unit, must administer the assessment.

Evidence other than that collected through the use of this assessment tool may be considered provided that it is in line with the rules of evidence, the training package requirements, and the training organisation's policies and procedures. Any evidence, including evidence gathered through the use of this assessment tool, must follow the rules of evidence in order to be considered as contributing to a learner's demonstration of competency.

Conducting the Practical Assessment

You will need a copy of this document for each learner to be assessed.

The purpose of this assessment is to gather evidence relating to a unit of competency to determine whether or not the learner has demonstrated the skills and knowledge required by the unit to be considered competent.

All practical assessments must be undertaken in the workplace or under realistic workplace conditions, which include:

- The use of full-scale equipment.
- Timely and consistent completion of assessments reflective of outcomes expected in the workplace.
- Completing assessments regardless of weather conditions and responding appropriately to the environment.
- Acting in accordance with site and safety procedures, requirements, and regulations.

Details specific to each assessment are recorded in the Assessment Plan document. Please refer to this plan in preparation for any assessments.

1. You must direct each learner to the practical assessment section at the back of the Learner Guide which outlines the practical assessments to be completed, before the assessment begins.
2. You need to brief learners on the assessment tasks contained in the practical assessment. Answer any questions that they may have.
3. You must supervise learners at all times during the assessment. Each learner must be observed to satisfactorily complete each task, even in situations where the work is completed by a team.
4. Learners may not use any references, books, or course notes during assessments, unless these resources are common to completing the task when performed in the workplace.
5. All assessments must be satisfactorily completed. If a learner does not satisfactorily complete an assessment, a result of 'Not yet competent' will be recorded.
6. Learners should be able to complete the test in [99] minutes. The time stated is a guide only. If a learner cannot complete the assessment in the stated time, this needs to be considered when assessing overall competency.
7. You may ask questions during the practical assessment to ascertain the knowledge of learners and reasoning for specific action required by the task. Learners may also be required by the task to explain what they are doing. You must record these comments and any other observations in the Notes & Observations section of the practical assessment.

Assessment Safety Considerations

You must make sure all required Personal Protective Equipment (PPE) is available, and that all learners are correctly fitted with PPE before the practical assessment begins.

You should ensure that any faulty or defective equipment intended for the purpose of hazard identification or equipment checks are secured away from serviceable equipment to prevent an unsafe situation occurring during the test.

Grounds for stopping the Assessment

If, at any time during the practical test, any learner acts in a manner that endangers themselves, others, equipment or property, the assessment must be stopped immediately. You are required to identify the dangerous act to the learner and re-schedule the test for a later time.

Determining Satisfactory Completion

In order for a learner to achieve a satisfactory outcome for the practical assessment, they will need to:

- ✓ Complete all tasks and assessments in their entirety
- ✓ Complete all tasks and assessments satisfactorily, in a timely manner, representative of real world conditions, expectations and outcomes.
- ✓ Complete all tasks and assessments safely, using the correct techniques and methods and ensuring own safety and the safety of others at all times.
- ✓ Where a task benchmark is marked no (N), please make appropriate notes in the section provided.
- ✓ Working with others, where necessary, to safely, effectively and efficiently achieve all outcomes of the assessments.

Completing the Assessment Summary and Determining Competency

An Assessment Summary is included at the end of this document and must be completed at the conclusion of both the theory and practical parts of the Final Test (summative assessment).

If the learner does not complete or achieve a satisfactory outcome in any assessment you should consider the learner as "not yet competent".

Copies of all evidence gathered during training and assessment should be attached to the assessment summary for record keeping purposes.

A copy of the assessment summary results and sign-off should be provided to the learner at the conclusion of the course.

RIIWHS302E Implement Traffic Management Plans Practical Assessment

Learner Name:	
Assessor Name:	
Date of Assessment:	
Location of Assessment:	

Pre-Assessment Checklist:

- Assessment plan reviewed and validated.
- All resources required to conduct assessment are available
- Site and weather conditions are appropriate and suitable for assessment
- Learner is wearing appropriate clothing to participate safely in the assessment.
- Learner has completed adequate training prior to attempting this assessment.
- Assessor qualifications are current and relevant to the assessment.

Notes/Comments:

Assessment 1 - Implement a Traffic Management Plan for Lane Closure at a Construction Site

Assessment Checklist:

The learner is required to implement a traffic management plan that is safe and follows workplace policies and procedures by demonstrating the following:

a) Plan out work by speaking with appropriate site personnel, locating information and work instructions for implementing the traffic management plan, and confirming:

i) Task requirements.

Did the learner correctly locate and confirm their task requirements?	Y	N
---	---	---

Was the learner able to explain their task requirements using clear and accurate terminology?	Y	N
---	---	---

ii) Traffic management plan and traffic guidance scheme.

Did the learner correctly locate and confirm the traffic management plan and traffic guidance scheme for this task?	Y	N
---	---	---

iii) Site policies and procedures.

Did the learner correctly locate and confirm the site policies and procedures for this task?	Y	N
--	---	---

Was the learner able to explain how these policies and procedures would impact on the planning of the task?	Y	N
---	---	---

iv) Health and safety guidelines.

Did the learner correctly locate and confirm the health and safety guidelines for this task?	Y	N
--	---	---

Was the learner able to explain how these health and safety guidelines would impact on the planning of the task?	Y	N
--	---	---

v) Training and qualification requirements for traffic controllers.

Did the learner correctly locate and confirm the training and qualifications for traffic controllers for this task?	Y	N
---	---	---

Was the learner able to explain the training and qualification requirements for the traffic controllers in this task?	Y	N
---	---	---

vi) Environmental protection requirements.

Did the learner correctly locate and confirm the environmental protection requirements for this task?	Y	N
---	---	---

Was the learner able to explain the environmental protection requirements for this task using clear and accurate terminology?	Y	N
---	---	---

b) Inspect and prepare the work area in coordination with other personnel, including:

i) Identify, address and report hazards, risks and environmental issues.

Did the learner correctly identify at least one hazard in accordance with procedures?	Y	N
---	---	---

Did the learner correctly identify the risk level for identified hazards?	Y	N
---	---	---

Did the learner correctly identify any environmental issues in accordance with procedures?	Y	N
--	---	---

Did the learner correctly address any hazards in accordance with procedures?	Y	N
--	---	---

Did the learner correctly address any risks in accordance with procedures?	Y	N
--	---	---

Did the learner correctly address any environmental issues in accordance with procedures?	Y	N
---	---	---

Did the learner correctly report any hazards in accordance with procedures?	Y	N
---	---	---

Did the learner correctly report any risks in accordance with procedures?	Y	N
---	---	---

Did the learner correctly report any environmental issues in accordance with procedures?	Y	N
--	---	---

ii) Validate suitability of traffic management plan and traffic guidance scheme to site conditions, traffic volume and required personnel, and adjust as required.

Did the learner correctly validate the suitability of the traffic management plan and traffic guidance scheme to site conditions?	Y	N
---	---	---

Did the learner correctly validate the suitability of the traffic management plan and traffic guidance scheme to traffic volume?	Y	N
--	---	---

Did the learner correctly validate the number of personnel required for this task?	Y	N
--	---	---

Assessment 1 - Implement a Traffic Management Plan for Lane Closure at a Construction Site

Did the learner correctly apply hazard control procedures?	Y	N
Did the learner correctly report hazards in line with procedures?	Y	N
iii) Adjust the traffic guidance scheme as required, and document changes.		
Did the learner adjust the TGS when required throughout the task?	Y	N
Did the learner correctly document changes to the TGS in accordance with procedures?	Y	N
iv) Report traffic offences.		
Did the learner take note of all details required to report a traffic offence?	Y	N
Did the learner correctly report at least 1 traffic offence in accordance with procedures?	Y	N
v) Control site construction vehicles, as required.		
Did the learner correctly control site construction vehicles as required for this task?	Y	N
e) Close down work activities and complete housekeeping requirements.		
Did the learner correctly close down work activities in accordance with procedures?	Y	N
i) Direct covering and removal of equipment, signs and devices in correct order.		
Did the learner direct covering and removal of equipment, signs and devices using clear and accurate terminology?	Y	N
Did the learner direct covering and removal of equipment, signs and devices in the correct order?	Y	N
ii) Confirm tools and equipment are cleaned, maintained, checked and stored.		
Did the learner confirm used tools and equipment were cleaned and maintained in accordance with procedures?	Y	N
Did the learner confirm used tools and equipment were checked in accordance with procedures?	Y	N
Did the learner confirm used tools and equipment were stored in accordance with procedures?	Y	N
iii) Finalise traffic work area close-down.		
Did the learner correctly finalise the traffic work area close-down in accordance with procedures?	Y	N
iv) Conduct functional inspection in vehicle.		
Did the learner correctly conduct a functional inspection in a vehicle in accordance with procedures?	Y	N
