

TLILIC0024 Licence to Operate a Vehicle Loading Crane (capacity 10 metre tonnes and above)

TLILIC0024 Licence to Operate a Vehicle Loading Crane (capacity 10 metre tonnes and above)

[START COURSE](#)

Overview

This online workbook is pre-course material only - you are still required to attend a practical session and successfully complete a practical assessment before you will be awarded a nationally recognised statement of attainment.

Take your time and read each section carefully, it might help for you to take notes. Make sure you answer all of the checkpoint review questions along the way. The results of this will be sent to your trainer as part of your course assessment.

What you will learn

This course is designed to help you understand all of the elements required to Operate a Vehicle Loading Crane (capacity 10 metre tonnes and above).

SECTION 1

1.1 INTRODUCTION

1.1. Introduction

Lesson 1 of 131

1.1. Introduction

This training course is based on the National High Risk Licence Unit of Competency TLILIC0024 Licence to Operate a Vehicle Loading Crane (capacity 10 metre tonnes and above).

You will learn about:

- Planning the work.
- Selecting and inspecting equipment.
- Preparing the site and equipment.
- Shifting loads using a vehicle loading crane.
- Shutting down the job and cleaning up.

Lesson 7 of 131

1.2.1 Work Health and Safety Requirements

Work Health and Safety (WHS) laws and guidelines help keep your workplace safe.

These can be broken down into four main types:

Acts	+
Regulations	+
Codes of Practice	+
Australian Standards	+

Some states use OHS laws, and other states use WHS laws. They both talk about the same thing, but use different words or names for people. If you have any questions about safety rules you should talk to your boss or supervisor.

Question

01/03

Section 1: Question 1 - What is meant by the crane moving term 'luffing'?

- Luffing is the movement of the crane along the access point.
- Luffing is the raising and lowering of the hook block using the hoist rope.
- Luffing is moving the hoisting mechanism along the hoist drum.
- Luffing is the up and down movement of the boom.

SUBMIT

The image shows a mobile application interface for a quiz. At the top left, there is a hamburger menu icon. The main content area is white and contains the following text:

Question
01/05

Section 1: Question 4 - Select three (3) of the main types of health and safety rules.

Below the text is a list of six options, each with an unchecked checkbox:

- Codes of Practice.
- Australasian Standards.
